

ELGIN & HALL

Complete Collection

Timeless Elegance, Captivating Warmth

Finding your favourite fireplace has never been so easy.

Responsible sourcing and manufacturing

High quality hand finished products

Designed and manufactured in the UK

A Warm Welcome

To our new collection

An Elgin & Hall fireplace could easily be the most rewarding addition you make to your home and its value.

Since the foundation of our parent company in 1963, we have successfully continued to grow from our base in the North of England. Every design is lovingly created here in the UK.

Over 50 years of continuous innovation and development has provided us with a collection of fires and fireplaces to

suit any interior and lifestyle, whilst always adhering to our founding principles of elegance and simplicity.

This timeless quality means your chosen fireplace will always be comfortably in agreement with your tastes in furnishing and décor.

You can rest assured that our gas and electric fires are engineered, produced and tested for peak performance and reliability.

Our surrounds are designed to keep up with changing lifestyles and include features which only we can produce thanks to our investment in the latest machinery.

At the same time, we depend on our craft skills to hand finish and polish each marble or timber piece to perfection. It is this balance of innovation and heritage that makes your Elgin & Hall fireplace uniquely special.

50" Milena surround (page 29) in Manila micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Brass

An introduction to Micro Marble Surrounds

Possessing all of the charm and beauty of natural marble, micro marble offers a guaranteed even surface and strength to withstand wear and tear in the home.

Micro marble is a reconstituted mix of real marble pieces which are crushed and compacted together using resin to ensure a smooth surface finish.

This beautiful material has to be seen to be believed and to be fully appreciated first hand.

The craftsmanship we devote to producing fireplaces in our UK workshops is matched by innovation.

Our latest micro marble surrounds have clever touches and refinements pioneered by our in-house designers and technology.

Another reason why your choice of an Elgin & Hall fireplace is anything but ordinary.

Finishes

Manila White Pearl Stone Grey

NB: colour options will vary for each surround.

Lighting

Under mantel SmartSense lighting is available on many of our surrounds.

Hearth Options

Bullnose Standard Lipped Five-Sided

A great selection of hearth options are available, including a made to measure service on Standard Lipped and Bullnose - ask your retailer for details.

product

52" Eliana surround in Manila micro marble with Smartsense lights featuring a Be Modern Titanium gas fire with Cast trim in Chrome

Eliana

Surround

Here is simplicity with a curvaceous appeal. The delicately arching frame takes a slight step inwards before the gentle curved profile on all sides to create a bold structure unique to Elgin & Hall.

Models:	48" or 52"* Surround
Finish:	Grey / Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

Beautifully constructed

Vitalia

Surround

The grand presence of this stunning micro marble surround is unrivalled.

With its fine detailing and angled stepped design the Vitalia is an uncompromising and stylish feature for any interior.

Models:	48" or 52"* Surround
Finish:	Grey [†] / Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

[†]Grey micro marble available in 52" only.

52" Vitalia surround in White micro marble with Smartsense lights featuring a Chollerton gas fire (page 72) in Chrome

Available as a gas fireplace (page 66-67)

Available in Grey micro marble

Florano

Surround

This design combines strong, straight architecture with a gentleness provided by the Florano's soft arch.

In an agreeable contrast of White and Grey micro marble this surround is an ideal contemporary addition.

Models:	48" Surround
Finish:	White & Grey micro marble
Hearth:	Standard Lipped
Lights:	Optional

NEW
product

48" Florano surround in White and Grey micro marble with Smartsense lights featuring a Devotion gas fire (page 71) in Nickel

Timara

Surround

Gentle hues of White and Grey micro marble are a true delight in the form of the Timara, beautifully offset by the traditional square profile and under mantel lighting. The slight frame of this 48" surround creates a chic centrepiece in any space.

Models:	48" Surround
Finish:	White & Grey micro marble
Hearth:	Standard Lipped
Lights:	Optional

NEW
product

48" Timara surround in White and Grey micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Chrome

52" Siena surround in Pearl Stone micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Chrome

Siena

Surround

The classic quality of micro marble is perfectly expressed in this Renaissance design. The apparent simplicity of the Siena is discreetly offset by the fine fluting that defines the surround where it steps inwards in a concave curve.

Models:	48" or 52"* Surround
Finish:	Manila / Pearl Stone / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

Smartsense lighting available

52" Harriet surround in Pearl Stone micro marble with Smartsense lights featuring a Devotion gas fire (page 71) in Brass

Harriet

Surround

What makes a masterpiece: the forward standing arched brow and pillars, the pretty step up from the bullnose hearth, the double contoured mantel top or simply the whole harmonious combination.

Models:	52" Surround
Finish:	Manila / Pearl Stone micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

Splayed back panel and plinth

NEW
product

50" Amorina surround in White micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Black

Amorina

Surround

This captivating creation owes its individuality to the classic credentials of the curved detailing. A tall, wide and handsome surround, the Amorina is equally charming in a traditional or contemporary setting; simply choose a fire to add the finishing touch.

Models:	50" Surround*
Finish:	Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

Classic stepped design

Available as an electric fireplace (page 41)

Available in White micro marble

Smartsense lighting

54" Viena surround in Manila micro marble with Smartsense lights featuring an Evolution Desire inset electric stove (page 76)

Viena

Surround

With soft curves and an unassuming arch the Viena provides a calming presence. This surround will find itself easily at home amongst any interior. The addition of Smartsense under mantel lighting adds another dimension to this surrounds universal appeal.

Models:	48" or 54"* Surround
Finish:	Manila / White micro marble
Hearth:	Standard Lipped
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

54" Eternia inglenook in Manila micro marble with Smartsense lights featuring a Broseley Hereford 5 gas stove

Eternia

Inglenook & Surround

Models:	54" Inglenook [†] or Surround*
Finish:	Manila / White micro marble
Hearth:	Standard Lipped
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

[†] Not suitable for solid fuel stoves

The tall and elegant looks of this finely detailed surround radiate sophistication. Add a further statement to your room with an open inglenook or keep it classic with the full surround.

The Eternia perfectly acquaints itself with a gas or electric stove at its centre.

54" Eternia surround in White micro marble featuring a Cast Stove Front gas fire (page 73)

Aurelia

Surround

Detailed profile

There's something sublime about the Tudor Arch that's right for any era or room style. But what gives the Aurelia the extra magic is the way its edges have a soft inward curve - beautifully offset by the Smartsense under mantel lighting.

The fluted detail of the Aurelia profile embodies the innovation of Elgin & Hall and creates an enchanting finish.

Adding a five sided hearth provides the final flourish to this design.

Models:	48" or 52"* Surround
Finish:	Grey / Manila micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

52" Aurelia surround in Manila micro marble with Smartsense lights featuring a Cast Stove Front gas fire (page 73)

Odella

Inglenook & Surround

The timeless style of the Odella is beautifully complimented by an inset gas fire radiating heat.

Also available as a striking inglenook with front and rear hearth; pairing perfectly with a gas or electric stove at its centre.

Models:	54" Inglenook † or Surround*
Finish:	Grey / Manila / White micro marble
Hearth:	Standard Lipped
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

† Not suitable for solid fuel stoves

54" Odella surround in Grey micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Brushed Steel

Available as an inglenook

Available in White micro marble

Rosalina

Surround

The charming double profile detail is delightfully accentuated by the wave arch of this beautiful surround.

Smartsense under mantel lighting offers a glowing ambience to be enjoyed in the warmth of your home.

Models:	50" Surround
Finish:	Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

50" Rosalina surround in Manila micro marble with Smartsense lights featuring a Broseley Hereford inset electric stove (page 76)

Sophia

Surround

A gorgeous ripple effect adds to the feminine charm of the Sophia micro marble surround. Finish this beautiful surround with any inset gas or electric fire of your choosing.

Models:	46" or 50"* Surround
Finish:	Manila / Pearl Stone / White micro marble
Hearth:	Standard Lipped / Five Sided† / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

†Five Sided hearth available on 48"+ surrounds.

50" Sophia surround in Manila micro marble with Smartsense lights featuring a Devotion gas fire (page 71) in Nickel

NEW
product

54" Vamella surround in Manila micro marble with Smartsense lights featuring a Chollerton gas fire (page 72) in Brushed Steel

Vamella

Surround

For anyone with an eye for detail, this micro marble design will repay your admiring gaze for as long as it continues to grace your home.

The profiling takes two steps inwards, then back out again to frame your choice of gas or electric fire and give an impression of depth. The harmonious design is completed with the bullnose shelf and standard lipped hearth.

Models:	54"* Surround
Finish:	Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

Available as a gas fireplace (page 62 - 63)

50" Felicia surround in Manila micro marble featuring an Ember electric fire (page 77) in Chrome

Felicia

Surround

This broad surround with a softly curved double profile arch will suit any style of room – from traditional to contemporary.

Opt for a bullnose hearth to perfectly balance the curve and create a softness that appeals to all interiors.

Models:	50" Surround
Finish:	Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

50" Milena surround in Manila micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Brass

Milena

Surround

The elegant, timeless design with double profile detail makes this micro marble surround every inch the favourite.

Combine this classic surround with a gas or electric fire to enhance the detail with the glow of the flames.

Models:	50" Surround
Finish:	Manila / White micro marble
Hearth:	Standard Lipped / Five Sided / Bullnose
Lights:	Optional

Available as an electric fireplace (page 45)

Curved profile detail

50" Roesia surround in Grey micro marble with Smartsense lights featuring a Chollerton gas fire (page 72) in Nickel

Roesia

Surround

The simple geometry of this modern design is softened by curved edging under the mantel and around the inner profile of the surround.

The Roesia is also available as a complete electric fireplace to conveniently fit any flat wall.

Models:	44" or 50"* Surround
Finish:	Grey / Manila / White micro marble
Hearth:	Standard Lipped / Five Sided [†] / Bullnose
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

[†]Five Sided hearth available on 48"+ surrounds.

54" Verdena surround in White micro marble with Smartsense lights featuring an Exclusive gas fire (page 70) in Brushed Steel

Verdena

Surround

The Tudor Arch is an Elgin & Hall signature style that really sets this fireplace apart from its peers.

The arch is sculpted in a smooth, convex profile that gives the Verdena a contemporary twist.

Models:	48" or 54"* Surround
Finish:	Manila / White micro marble
Hearth:	Standard Lipped
Lights:	Optional

*Back panel available with 22" cut out for installation with the Chollerton fires.

An introduction to

Limestone

Surrounds

To create a graceful Limestone centre piece, the quarried stone is expertly selected, cut, carved and polished to give your room a splendid feature.

Limestone has been sought after down the ages due to its adaptability. It naturally looks right with everything. Whether you tend towards the traditional, veer to the modern or are content to be eclectic, there's a fireplace in the Collection that suits your style.

Our Limestone surrounds are manufactured from natural stone resulting in natural variation; this can include shading, veining, crystal markings and fossils.

Therefore the Limestone surround you purchase may differ slightly from that shown in this brochure and have its own unique markings. This is the beauty of a natural stone product.

Caring for Limestone

To preserve the beauty and prolong its life, your fireplace needs regular cleaning. Due to its natural properties, Limestone needs special care and attention. This material can stain easily and is sensitive to acids such as citrus juice, vinegar and household cleaning chemicals.

- Follow a periodic cleaning routine with a mild, neutral cleaner
- Avoid using chemical cleaners as these may damage or dull the surface
- Avoid using wax or spray polishes
- Avoid placing hot objects, drinks etc directly onto the fireplace
- Clean with warm water

Fine detailing

Contents

35	Aurelia	37	Elissa
36	Vitalia	38-39	Colwyn

The Tudor Arch of this Limestone fireplace effortlessly creates an ambience which defines the Aurelia's traditional style.

There's something special about this shape that's right for any era, any room, any style.

Your whole room will gain a soft illumination from the integrated Smartsense lighting.

Aurelia

Lights:	As standard

NEW
product

48" Aurelia Limestone surround with Smartsense lights featuring a Devotion gas fire (page 71) in Nickel

Angular step design

Vitalia

Limestone Surround

The Vitalia's foursquare boldness is offset by the fine detailing of the inward-stepping framework which draws the eye gently to the fire within.

The broader proportions of this surround give you the freedom to opt for the greater impact of a wide screen format gas fire, which the Vitalia is comfortably able to accommodate.

Models:	52"* Surround
Hearth:	Standard Lipped
Lights:	As standard

*Back panel adjusts to 22" cut out for installation with the Chollerston fires.

NEW
product

52" Vitalia Limestone surround with Smartsense lights featuring a Chollerston gas fire (page 72) in Brushed Steel

Elissa

Limestone Surround

An essentially simple design gains a certain curvaceous appeal thanks to the delicately arching frame which turns inwards on all three sides to a full 90 degrees.

The variegated texture of Limestone allows for the Elissa to look as though it was made for the style in which you furnish your space, classic or contemporary.

Models:	50" Surround
Hearth:	Standard Lipped
Lights:	As standard

product

54" Colwyn Limestone surround with Smartsense lights featuring a Cast Stove Front gas fire (page 73)

Colwyn

Limestone Inglenook & Surround

Models:	54" Surround or Inglenook
Hearth:	Bevelled
Lights:	As standard

This is more than a fireplace, it's a piece of great domestic architecture – classic stoic base, Tudor Arch, intricately carved profiles and mantel shelf. The Colwyn makes a handsome companion for a gas or electric fire, and really comes into its own with an inglenook opening.

Limestone is ideal for multifuel stoves because it has the special property of absorbing maximum heat output and holding it like a radiator for your greater comfort.

An introduction to Electric Fireplaces

Beauty of electric

Our electric fireplaces offer ultimate convenience - they can be installed against any flat wall in any room.

With a style as beautifully different as the decor and furniture which you seek to match - there is a fireplace as individual as you are.

The 2kW performance provides instant heat when you arrive home, supplements central heating or allows you to heat just one room when the weather is on the cool side.

Flame effect

The flame-effect-only setting gives the impression of radiant logs and flickering flames with a choice of three levels without the added heat; perfect for warmer nights.

The latest LED technology produces a play of red, orange and yellow tones with hints of blue that is both realistic and cost-effective.

Easy installation

This amazing transformation can be fitted in half a day at the most. Because it's electric no chimney or recess is required. Then it's just a question of simply plugging it in... and let the magic begin.

Finishes

Our range of electric fireplaces gives you a choice of micro marble, natural timber veneer or soft-toned painted finishes.

Models:	44" or 48" Fireplace
Marble Finish:	Manila
Hearth:	Bevelled Slim / Bevelled Deep

Stepped detailing frames the fire

An introduction to Gas Fireplaces

Thanks to innovative design, we have engineered a way to fit our new highly desirable gas fires into the standard 16x22" opening in a UK chimney breast or pre-cast flue, with no need for any building work.

And we've created magnificent micro marble fireplaces to fit – the Orieta surround has been set forwards by 55mm to accommodate more of the gas fire. This allows it to sit against a flat wall in front of a pre-cast flue opening with no building work whatsoever – ingenious.

The Mariella, Vamella and Vitalia all allow a Gas Safe engineer to simply replace an existing conventional gas or solid fuel fire in a standard chimney breast opening.

Whichever you prefer, the installation is all the more simple because all the fireplaces are made as a complete single unit. It has taken years of research to develop and perfect this innovative technology which puts Elgin & Hall a step ahead of the market.

Finishes

Please note: colour options will vary for each surround.

Control

Easy slide ignition and operation.

Conventional Flue

If your home has a traditional chimney - identified by the brick stack and pot on your roof and a chimney breast in your room, the Mariella, Vamella or Vitalia is the choice for you. Your installer will be able to simply place these fireplaces into the existing opening and your chimney does the rest. No building work required!

Pre-cast Flue

Many homes built from 1960 onwards have a pre-cast flue - much narrower than a traditional chimney, usually identified by a ridge vent or a metal flue pipe on the roof. Ordinarily only slimline fires would fit this flue, however now you can choose to install an Orieta. Again no structural work needed.

Bevelled mantel top detail

Contents

61	Orieta	64 - 65	Mariella
62 - 63	Vamella	66 - 67	Vitalia

48" Orieta gas fireplace in White micro marble

Made to fit into any pre-cast flue

The Orieta pairs timeless marble with advanced gas technology. Fire and surround together compose a single, integrated unit, making it easy to fit and satisfying to behold.

The glass-fronted fire delights with large dancing flames, by completely filling the space framed by the surround - taller so

the flames can climb further, broader so the log bed can stretch the glow.

But here's the subtle difference. The inner frame of the beautiful micro marble surround curves fractionally outwards, creating enough space behind it to accommodate the fire's concealed working components.

The Orieta

An introduction to

Inset Gas

Fires

Once you've selected your new stunning fireplace, you may choose to give it a warm glowing heart with an Elgin & Hall gas fire.

Our gas fires are controllable and convenient to operate with a discreet Smartslide control mounted on the top side or a manual control and igniter located behind the fire - flame height and heat output is at your control.

Warranty

We provide a 5 year Warranty* so you can be confident you have purchased and installed a high quality product.

*Terms & conditions apply.

Contents

70	Exclusive	72	Chollerton
71	Devotion	73	Cast Stove Front

Safety Assurance

Flame Failure Device

All of our gas fires are fitted with a flame monitoring device ensuring that in the event of the flame going out during its operation, the gas supply to the fire is instantly cut off.

Oxygen Depletion Sensor

For your safety, all our gas fires are fitted with an Oxygen Depletion Sensor. This will shut off the gas supply if the oxygen level in the room is too low or if there is a blockage in the chimney or flue.

Quality Approved

All Elgin & Hall fires are manufactured in accordance with internationally recognised Quality and Environmental Management System Standards ISO 9001-2015 and ISO 14001-2015 guaranteeing responsible working and product quality.

Installation

Current regulations stipulate that all gas fire installations must be carried out by a Registered Gas Safe Engineer.

For information and advice on a Gas Safe Engineer, please contact your local Elgin & Hall retailer.

Servicing

We recommend that all gas fires are serviced annually by a Registered Gas Safe Engineer to ensure continued operation and optimum performance.

This annual service is a condition of our 5 year warranty, and you must be able to show a record of approved servicing to be able to make a claim.

Super Controllable

Smartslide Control

The discreet Smartslide control mounted at the top right hand side makes your Elgin & Hall gas fire convenient to operate. To turn the fire on simply press down and release.

Likewise you can turn the fire off by lifting to its top position. The control's second function is to regulate the flame height and heat output.

Smartslide controls give you the freedom to change the fire picture from smouldering to blazing at a touch to suit your mood and desired room temperature.

Manual Control

All our open fronted gas fires are available as manual control.

Neatly concealed behind the fret, these controls allow you to regulate your heat output and flame setting before replacing the fret for a sleek finish.

Accessories

Xtra Canopy

The Xtra canopy kit* "tunes" the appliance to your flue to raise the efficiency by up to 8% on an open fronted fire.

*Available on Slimline or Deepline Radiant models only

Spacer Kit

The spacer kit fits to the rear of the fire to reduce the depth by 25mm. It is ideal for use with pre-cast flues.

Handle Options

An easy grip* attachment allows those with restricted movement to control the ignition & heat.

Matching colour handles are available in Brass & Chrome. A Black Smartslide handle is supplied as standard with Smartslide models.

*Easy grip handle not suitable for Chollerton gas fire.

Cast Stove Front with balanced flue gas fire

Cast Stove Front with a high efficiency deepline gas fire featured in the Aurelia surround (page 20 - 21)

Elgin & Hall provide an extensive choice of gas fires with options to suit your home. Whether you have a traditional brick chimney, pre-cast flue or no flue at all, we have a model to fit.

Our open fronted gas fires are ideal for occasional use providing an essential secondary heat source with real dancing flames that provide instant heat within your fireplace. Our glass fronted fires provide greater efficiencies making them ideal for constant or regular use to efficiently heat any room through their radiant and convected heat.

For those situations where you have no chimney or flue, our balanced flue fires are ideal for venting directly through an outside wall.

If you're unsure which chimney or gas fire you need, contact one of our Elgin & Hall retailers who will be happy to survey your property and provide professional guidance and advice on which Elgin & Hall gas fire is right for your home.

Visit www.elginandhall.co.uk

Step 1: Consider The Fit

All gas fires require a chimney or flue to conduct expended gases to the exterior. To identify which type your house has and which model of fire will fit (slimline, mid-depth or deepline), check the simple descriptions below.

Brick Chimney Flues Class 1

Easily recognisable from the stack above the roof line (usually with a pot or gas terminal). Once the fire is sealed into the chimney cavity, any harmful gases are expelled up the chimney itself and out of the roof. Any of our gas fires can be installed here.

Pre-Fabricated Flues Class 2

Identifiable by a metal flue and terminal on the roof, this flue system is suitable for all our gas fires. Piping from your flue right down to your fire transports the gasses from the fire and out of the house. Again this flue is suitable for installation with any of our gas fires.

Pre-Cast Flues

Recognisable by a ridge vent on the roof line, and built from concrete or clay blocks, usually within the wall cavity, the expelled gasses are vented through this shallow passage and out of the roof. Pre-cast flues are perfect for our Slimline or Deepline* Radiant gas fires.

* Deepline Radiant fire suitable when installed with a 75mm rebated surround

Balanced Flue

Identified by a round flue installed directly through an external wall or the roof. Our balanced flue fire is completely sealed from the front, allowing air to circulate through the flue to the rear of the fire. Cold air is sucked into the fire to combust and the gasses are expelled via the same point. This fire is highly efficient due to its airtight installation and can be installed without a chimney breast.

Step 2: Choosing The Right Engine

Open Fronted

Slimline Radiant

Radiant gas fires pull in cold air through their open front, circulating it over the real flames and emitting it back into the room.

Install In:	Pre-Cast, Pre-Fab or Brick Chimney	
Efficiency:	50% (58% with Xtra canopy)	
Control:	Smartslide or Manual	
Heat Input:	High 6.75kW	Low 3.0kW
Heat Output:	High 3.1kW	Low 1.4kW

Deepline Radiant

Install In:	Pre-Cast*, Pre-Fab or Brick Chimney	
Efficiency:	51% (54% with Xtra canopy)	
Control:	Smartslide or Manual	
Heat Input:	High 6.75kW	Low 3.0kW
Heat Output:	High 3.2kW	Low 1.4kW

* When installed with a 75mm rebate surround

Deepline Convector

Hot air is transferred through the canopy to circulate the warmth around your room.

Install In:	Pre-Fab or Brick Chimney	
Efficiency:	62%	
Control:	Smartslide or Manual	
Heat Input:	High 6.75kW	Low 3.0kW
Heat Output:	High 3.8kW	Low 1.7kW

Glass Fronted

Mid-Depth

A panel of ceramic glass prevents air from being sucked up through the front of the fire and directing heat up the chimney, meaning a higher percentage of convected and radiant heat is propelled back into the room.

Install In:	Pre-Fab or Brick Chimney	
Efficiency:	87%	
Control:	Smartslide	
Heat Input:	High 4.1kW	Low 2.5kW
Heat Output:	High 3.4kW	Low 2.0kW

Deepline

Install In:	Pre-Fab or Brick Chimney	
Efficiency:	89%	
Control:	Smartslide	
Heat Input:	High 5.5kW	Low 2.5kW
Heat Output:	High 4.5kW	Low 2.0kW

Widescreen

Install In:	Pre-Fab or Brick Chimney	
Efficiency:	88%	
Control:	Smartslide	
Heat Input:	High 5.5kW	Low 2.5kW
Heat Output:	High 4.4kW	Low 2.0kW

Balanced Flue Glass Fronted

This glass fronted balanced flue gas fire is pleasingly traditional with a welcome efficiency of 86% and a cosy 3.3kW heat output.

Install In:	Balanced Flue	
Efficiency:	86%	
Control:	Manual	
Heat Input:	High 4.2kW	Low 2.9kW
Heat Output:	High 3.3kW	Low 2.2kW

An introduction to **Inset Electric** *Fires & Stoves*

Whichever Elgin & Hall micro marble surround you choose, the centre of attraction is the fire itself, inset into the back panel.

Whether you are replacing a gas or coal fire or installing a natural focus to a room with no existing fireplace, going electric allows you to connect with clean, instant, efficient and thermostatically controlled heat.

Benefits

With an electric fire you don't need to generate heat to enjoy its comforting glow. The LED flame effect only control option, lets you experience it any time of the day or year.

Efficient

Enjoy the convenience of efficient, instantly controllable heat and clean maintenance-free living. By itself the LED only effect consumes just 6 watts of energy. Brilliant!

Remote Control

An Elgin & Hall inset fire should be effortless to operate. Which is why they come complete with a remote control to put different levels of heat, light and flame at your fingertips.

Ignite

Inset Electric Stove

With its squared-off proportions the Ignite can be installed into an existing fireplace or for a flat wall installation use with a 75mm rebate surround. Featuring a real cast iron door this electric stove offers an authentic multifuel stove look and feel.

Hereford

Inset Electric Stove

In sleek steel with cast door, bold detailing and splayed feet, the Hereford has the power to create a cosy centrepiece in any living space. Install this stove within an existing fireplace or for a flat wall installation use with a 75mm rebate surround.

Desire

Inset Electric Stove

The Desire's Matt Black steel frame adds character to your room. View the flickering flames from its large curved viewing window. The Desire again can be installed within an existing fireplace or for a flat wall installation use with a 75mm rebate surround.

Chollerton electric fire in Nickel

Chollerton

Inset Electric Fire

The Chollerton electric is a widescreen fire designed for installation into a wider 22" cut out back panel.

However this fire also offers the convenience of fitting into a standard chimney opening without any building work.

With its widescreen engine, the Chollerton is ideal for larger surrounds. A wide choice of frames; Brass, Chrome, Nickel and Brushed Steel and an Anthracite profiled edge, this allows you to match your fire to your home furnishings whilst enjoying the flickering flames in a wide aspect fire.

Brushed Steel

Brass

Chrome

Ember electric fire in Black Chrome

Chrome

Ember

Inset Electric Fire

The Ember fire sits behind a curved glass front allowing extra depth to the shimmering embers and dancing array of flame in which the eye can wander.

The trim in lustrous Black Chrome or Chrome and the fret is magnetically attached to the base of the fire.

Perfect for installation into many of our micro marble surrounds.
