EFFICIENCY & STYLE

Welcome to the CastTec Integra Collection of cast-iron fireplaces and mantelpieces. The Integra concept combines a choice of unique cast-iron fireplaces and one of the most efficient and eco-friendly fires on the market today.

Suitable for gas, electric or solid fuel applications, Integra can be fitted into almost any flue type including homes with no chimney.

The Integra Collection is complimented by a stunning range of beautiful handcrafted marble, granite, limestone and slate mantelpieces.

All mantelpieces, cast-iron inserts and hearths are interchangeable so you can even design your own fireplace.

Some designs are contemporary and minimalist whilst others are more traditional and ornate.

Whatever your taste in fireplaces, we hope you enjoy viewing our Integra Collection and hope you will find something perfect to suit your home and your lifestyle.

Supply Policy

Cast Tec and its distributors only supply reputable outlets that display its products in a showroom and have the facility to arrange a professional installation.

Professional advice and experience are essential when contemplating the purchase and fitting of an Integra fireplace as every fireplace installation is unique and is governed by regulations.

An installer for Integra Gas fires should be a 'Gas Safe' Registered Engineer.

An installer for the Solid Fuel Integra should be a HETAS Registered Engineer.

The installation of an Electric Integra suite requires a suitable electric socket or spur and a flat wall that is wider than the mantelshelf length. If a suitable electrical point is not available please consult a qualified electrician.

To locate your local Retailer please visit our website www.casttec.co.uk or use the QR scan code.

FIREPLACE OPTIONS

Cast-iron Fires

The Integra Collection boasts a range of beautiful cast-iron fireplaces that can be used in the most efficient and eco-friendly way for gas, electric and solid fuel applications.

Manufactured in the time honoured tradition, these castings can be plain or ornate and traditional or contemporary.

A gallery of cast-iron insert designs can be viewed on pages 78 to 79.

Castings can also have various finishes such as matt black, highlight polished (showing intricate detail) or traditional antique (graphite).

Electric castings are manufactured in aluminium.

Stone Mantels

The Integra Collection has an extensive range of hand crafted marble, granite, slate and limestone mantelpieces. All mantel designs suit all cast-iron inserts and hearths.

Integra stone mantel designs can be viewed on pages 72 to 74.

Oak Mantels

The Integra Collection has an attractive range of solid oak mantelpieces, which can be viewed on pages 76 to 77.

These mantels come in various sizes and designs and can be supplied in a light or medium oak stain or left unfinished on request.

Tiles

Some of our Integra cast-iron inserts require tile sets (or cast-iron sleeves). Our tiles are tube-lined and hand painted in the traditional way.

Two five tile runs or two cast-iron sleeves make up a complete tile-set. Tile designs have several colour options and can be viewed on pages 80 to 81.

Med Poppy Tile

Med Poppy Sleeve

Hearths

The Integra Collection has a range of beautiful hearths to compliment any chosen fireplace design.

Hearths are boxed and lipped in the traditional way, or come in our Munro style, a more robust and contemporary design which includes a solid bullnose edge to match many of our mantel designs.

Integra Assembly

INTEGRA GAS

The Integra Collection boasts a range of gas appliances that fit into any flue application including homes without a chimney.

Called **Integra Engines**, these gas fires are manufactured in the UK, to the highest of standards and are amongst the most efficient fires

available in the market today. Options depend upon the flue type you have in your home and this is set out clearly below.

Technical information such as outputs, efficiency and ignition options are available on page 83.

Traditional Chimneys (Class 1)

Traditional chimneys (or Class 1 Flues) tend to be of brick construction with a stack on the roof (and terra-cotta pot). The internal cross section is a minimum of 225mm x 225mm (but fabricated metal flue options can have an internal diameter of 175mm).

Cast Tec offer three gas fires for Class 1 Flues: the **Integra HO**, an open fronted radiant option, the **Convector Plus**, an open fronted convector option and the **Integra HE**, a glass fronted option.

Pre-cast Flues

Pre-cast flues are normally produced from concrete blocks which provide a rectangular flue way inside the wall cavity. The terminal usually consists of a ridge tile on the apex of the roof. For Pre-cast flues and Class 2 flues, Cast Tec offer a slimline gas fire engine called the **Classic Multiflue**.

Pre-fabricated Flues (Class 2)

Pre-fabricated flues (or Class 2 Flues) are usually constructed of steel sections with an internal diameter of 125mm. These flues usually have a recessed flue box (housing the gas fire) which connects to the bottom of the flue system and there is a metal terminal on the roof.

Cast Tec offer three gas fires for Class 2 Flues: the **Integra HO**, an open fronted radiant option, the **Convector Plus**, an open fronted convector option and the **Integra HE**, a glass fronted option.

No Chimney Options

For rooms with no chimney or flue but a suitable external wall Cast Tec offer a **Balanced Flue** version of the Integra HE gas fire engine.

Royal

The Royal Integra is a plain arched cast-iron insert in a matt black finish. The black finish creates a nice contrast to the light colour of the mantelpiece.

The mantel shown is the rather majestic looking Hexham in pure Turkish Limestone. This mantel is also available in Polar White, Roman Stone and Slate Stone (see pages 70-77 for more options).

The honed black granite hearth is boxed flush instead of the standard boxed and lipped (see hearth options page 75).

Cast	Royal
Finish	Matt Black
Engine	Gas
Mantel	Hexham
Material	Turkish Limestone
Shelf	1350mm (53")
Hearth	Boxed Flush
Material	Honed Black Granite
Size	1350mm x 380mm

Majestic

The Majestic Integra is a plain arched cast-iron insert, in a matt black finish, with only the outer band polished.

The mantelpiece shown is the Flat Victorian in Turkish Limestone. This mantel is also available in honed black granite and Italian Carrara.

A more contemporary version of the Flat Victorian is the Chilton mantel, shown on page 54. The Chilton and matching Munro hearth both sport rounded bullnose edges giving a softer look and feel.

The complete range of available mantelpieces is shown from pages 70 to 77.

Cast	Majestic
Finish	Highlight Polished
Engine	Gas
Mantel	Flat Victorian
Material	Turkish Limestone
Shelf	1350mm (53") or 1500mm (59")
Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1300mm x 380mm or 1450mm x 430mm

Regal

The Regal Integra is a plain arched insert with the inner and outer bands highlight polished along with the canopy rim and fire-front.

The mantel shown is the stylish Kensington in pure Turkish Limestone. This mantel is also available in Polar White, Roman Stone and Slate Stone.

All mantelpieces in the Integra Collection are interchangeable (see pages 70-77 for more options).

The honed black granite hearth is boxed flush instead of the standard boxed and lipped (see hearth options page 75).

Cast	Regal
Finish	Highlight Polished
Engine	Gas
Mantel	Kensington
Material	Turkish Limestone
Shelf	1350mm (53")
Hearth	Boxed Flush
Material	Honed Black Granite
Size	1350mm x 380mm

Viscount

The Viscount Integra is a plain arched cast-iron insert with a matt black outer fascia and highly polished interior. The reflection of the polished interior onto the polished black granite hearth is quite exquisite.

The Viscount is shown with the Durham Mantel in Crema Marfil pure marble from Spain. Pure marbles are individually unique and their beauty tends to be their variation in colour and veining.

If you are likely to be stressed by the inconsistency of pure marble, the Durham is also available in Roman Stone, a man-made micro marble which consists of 95% crushed marble and 5% resin. This mixture has no veining and has the advantage of being consistent in colouration.

Cast	Viscount
Finish	Half Polish
Engine	Gas
Mantel	Durham
Material	Crema Marfil
Shelf	1350mm (53") or 1500mm (59")
Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1300mm x 380mm or 1450mm x 430mm

Marquis

The Marquis Integra is a plain arched cast-iron insert with a stunning fully polished finish. This creates a very contemporary feel and there’s no doubt that this model likes to be noticed.

The Marquis is shown with the rather splendid Durham Mantel in polished Black Granite. A matching granite hearth creates a strong contrast against the full polish sheen of the Marquis casting.

The Durham Mantel is also available in Crema Marfil and Roman Stone marbles. The complete range of available mantelpieces is shown from pages 70 to 77.

Cast	Marquis
Finish	Full Polish
Engine	Gas
Mantel	Durham
Material	Black Granite
Shelf	1350mm (53") or 1500mm (59")
Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1300mm x 380mm or 1450mm x 430mm

Ashbourne Black

The Ashbourne Integra is a decorative arched insert with intricate detail to the inner and outer bands and the canopy. A matt black finish produces a more subdued and discreet look compared to the boldness of the polished model.

The mantel shown is the Verona in Carrara pure Italian marble. This mantel displays attractive hand carved corbels supporting the shelf.

All mantelpieces in the Integra Collection are interchangeable (see pages 70-77 for more options).

The hearth shown is tiled and slabbed in one piece using Ciara Slate scratch resistant porcelain tiles.

Cast	Ashbourne
Finish	Matt Black
Engine	Gas
Mantel	Verona
Material	Italian Carrara
Shelf	1500mm (59")
Hearth	Slabbed
Material	Ciara Slate Tiles
Size	1460mm x 438mm

Ashbourne Polished

The Ashbourne Integra is a decorative arched insert with the inner and outer bands polished along with the canopy and fire-front. The polished area highlights the intricate detail to the casting.

The mantel shown is the William IV in Carrara pure Italian marble. This mantel displays impressive corbels and an incised design.

All mantelpieces in the Integra Collection are interchangeable (see pages 70-77 for more options).

The honed black granite hearth is boxed and lipped (see hearth options page 75).

Cast	Ashbourne
Finish	Highlight Polished
Engine	Gas

Mantel	William IV
Material	Italian Carrara
Shelf	1500mm (59")

Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1450mm x 430mm

Aston

The Aston Integra is a decorative tiled insert shown here in an antiqued graphite finish. The Aston is also available in a matt black or highlight polished finish.

The Aston is shown inside the Brampton solid oak mantel in a light oak finish. The Brampton is a simple design with plain corbels. Our full range of wood mantels can be viewed on pages 76 and 77.

A set of ivory and blue Flag Iris tiles are shown in the casting.

The hearth is box and lipped in a discreet honed granite.

Cast	Aston
Finish	Antique
Engine	Gas
Mantel	Brampton
Material	Solid Oak
Shelf	1370mm (54")
Tiles	Flag Iris
Colour	Ivory Blue
Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1350mm x 380mm

Eden

The Eden Integra is a traditional tiled insert with an ornate patterned canopy shown here in an antique (graphite) finish. This model is also available in a matt black finish.

The Eden is displayed inside the Sherwood solid oak mantel and is shown with a set of Foxglove hand painted tiles in burgundy and ivory.

Our full range of tiles and cast-iron sleeve alternatives are shown on pages 80 and 81 and our full range of oak mantels can be seen on pages 76 and 77 (all interchangeable).

Cast	Eden
Finish	Antique
Engine	Gas
Mantel	Sherwood
Material	Solid Oak
Shelf	1370mm (54")
Tiles	Foxglove
Colour	Ivory Burgundy
Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1350mm x 380mm

Glen

The Glen Integra is a traditional tiled insert with an intricate patterned design, which includes an Adam style urn on the canopy. The Glen is shown as matt black but is also available in a highlight polished finish.

The mantel displayed is the Coniston in solid oak. Our full range of wood mantels can be viewed on pages 76 and 77.

The Glen is shown with a set of Tulip hand painted tiles in honey and yellow. Our full range of tile sets and cast-iron sleeve alternatives can be viewed on pages 80 and 81.

The hearth is box and lipped in honed granite.

Cast	Glen
Finish	Matt Black
Engine	Gas
Mantel	Coniston
Material	Solid Oak
Shelf	1370mm (54")
Tiles	Tulip
Colour	Honey Yellow
Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1350mm x 380mm

Jesmond Black

The Jesmond Integra is a plain cast-iron tiled insert suitable for gas fire engines.

Finished in matt black, the Jesmond has a contemporary feel and is shown with a set of Art Deco cast-iron sleeves rather than the usual tile set.

The mantelpiece shown is the Ripon in Roman Stone micro marble. The complete range of available mantelpieces is shown from pages 70 to 77.

The hearth is boxed and lipped in polished black granite (see page 75 for more options).

Cast	Jesmond
Finish	Matt Black
Engine	Gas
Mantel	Ripon
Material	Roman Stone
Shelf	1350mm (53")
Sleeves	Art Deco
Finish	Matt Black
Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1350mm x 380mm

Jesmond Full Polish

The Jesmond Integra is a plain tiled insert shown here in a stunning fully polished finish. This finish creates a very contemporary look and the addition of a set of tiles or cast-iron sleeves allows for the choice of a unique combination.

The Jesmond is shown inside the Ripon Mantel in Polar White marble.

The Ripon Mantel is also available in Roman Stone. The complete range of available mantel-pieces is shown from pages 70 to 77.

A honed granite hearth creates a nice contrast to the full polish sheen of the casting.

Cast	Jesmond
Finish	Full Polish
Engine	Gas
Mantel	Ripon
Material	Polar White
Shelf	1350mm (53")
Tiles	Thistle of Tay
Colour	Ivory Blue
Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1350mm x 380mm

Oxford

The Oxford Integra is a decorative tiled insert shown here in a stunning polished finish. A beautiful tulip design is depicted on the canopy in the art nouveau style.

The Oxford, also available in a matt black finish, is shown here inside a polished Limerick cast-iron mantel and displays a set of Field Poppy hand painted tube line tiles.

A highly polished black granite hearth shows a reflection of the polished casting.

Cast	Oxford
Finish	Highlight Polished
Engine	Gas
Mantel	Limerick
Material	Cast-iron
Shelf	1530mm (60")
Tiles	Field Poppy
Colour	Ivory Yellow
Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1450mm x 430mm

Ashbourne Combination

The Ashbourne Combination is a decorative cast-iron fireplace suitable for all Integra gas appliances and includes a small top shelf, thereby reducing the need for a separate mantelpiece.

The Ashbourne can be highlight polished, showing off the intricate detail of the casting, or simply matt black for a more understated look.

A total width of only 1120mm (44") makes this fireplace ideal to suit a small chimney breast.

The polished black granite hearth is 1050mm x 380mm (42" x 15").

Ashbourne Black

Regal Combination

The Regal Combination is a plain cast-iron fireplace suitable for all Integra gas appliances and includes a small top shelf, thereby reducing the need for a separate mantelpiece.

The Regal can be polished around two arched bands, the canopy and firefront, or simply matt black for a more understated look.

A total width of only 1120mm (44") makes this fireplace ideal to suit a small chimney breast or small living room.

The polished black granite hearth is 1050mm x 380mm (42" x 15").

Regal Black

INTEGRA ELECTRIC

The Electric Integra is a range of cast aluminium arched inserts and combinations which integrate majestically with a realistic electric fire called an Electraflame.

The unique selling point for the Electric Integra is the fact that the whole appliance can be housed inside a standard 75mm (3") rebated mantelpiece. This means that the complete fireplace can be installed against any suitable flat wall.

All mantelpieces and hearths within the Integra Collection are suitable to be used with electric installations; therefore it is possible to design your own individual fireplace.

Electraflame

The Electraflame Engine has a realistic flame effect and produces up to 2kW in fan-assisted heat if required, however, in the summer months you may opt for the attractive flame effect only.

Electraflame Controls

Manual controls are cleverly positioned just behind the cast aluminium canopy so that they are not too prominent but can be easily accessed without too much bending over. A remote control option is also available.

Scan the QR to see a live electricflame

Assembly Details

Ashbourne Polished

The Ashbourne Electric Integra is a decorative arched insert with the inner and outer bands, canopy and fire-front polished to highlight the intricate detail. This design is also available in a matt black finish.

The mantelpiece shown is the Corinthian in Italian Carrara marble. This mantel has a two tier shelf and two impressive hand carved acanthus leaf motifs.

All mantelpieces in the Integra Collection are interchangeable and can be viewed on pages 70 to 77.

The polished black granite hearth is boxed and lipped (see hearth options page 75).

Cast	Ashbourne Electric
Finish	Highlight Polished
Engine	Electric

Mantel	Corinthian
Material	Italian Carrara
Shelf	1500mm (59")

Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1450mm x 430mm

Viscount

The Viscount Electric Integra is a plain arched cast-iron insert with a matt black outer fascia and highly polished interior. A reflection of the polished interior onto the hearth is quite exquisite.

The Mantel shown is the Athena in polished black granite. The Athena sports two beautiful corbels and blends in well with a matching hearth. All mantelpieces in the Integra Collection are interchangeable (see pages 70-77 for more options).

The polished black granite hearth is boxed and lipped (see hearth options on page 75).

Material	Polished Black Granite
Shelf	1350mm (53") or 1500mm (59")
Hearth	Boxed & Lipped
Material	Polished Black Granite
Size	1300mm x 380mm or 1450mm x 430mm

Marquis

The Marquis Electric shown is a fully polished arched insert contrasting beautifully against the black granite mantel and hearth.

The mantelpiece shown is the Flat Victorian in honed black granite. This mantel is also available in Italian Carrara and Turkish Limestone.

All mantelpieces in the Integra Collection have an internal rebate of 75mm (3") allowing the Electric Integra range to fit flush against a flat wall (no chimney is required).

The honed black granite hearth is boxed and lipped (see hearth options page 75).

Cast	Marquis Electric
Finish	Full Polish
Engine	Electric

Material	Roman Stone
Shelf	1500mm (59")

Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1500mm x 450mm

ASHBOURNE COMBINATION

The Ashbourne Electric Combination is a decorative cast-aluminium fireplace and includes a small top shelf, thereby reducing the need for a separate mantelpiece.

The Ashbourne Electric can be highlight polished, showing off the intricate detail of the casting, or simply matt black for a more understated look.

A total width of only 1120mm (44”) makes this fireplace ideal to suit a small living room. Another advantage of Electric Combinations is that they can be fitted against a suitable flat wall (no need for a chimney).

The honed black granite hearth is 1050mm x 380mm (42” x 15”).

Ashbourne Black

REGAL COMBINATION

The Regal Electric Combination is a plain cast-aluminium fireplace which includes a small top shelf, thereby reducing the need for a separate mantelpiece.

The Regal Electric is polished around the arched band, canopy and firefront, or can be supplied in matt black for a more understated look.

A total width of only 1120mm (44”) makes this fireplace ideal to suit a small living room. Another advantage of Electric Combinations is that they can be fitted against a suitable flat wall (no need for a chimney).

The honed black granite hearth is 1050mm x 380mm (42” x 15”).

Regal Black

INTEGRA SOLID FUEL

The CastTec Solid Fuel Integra (SFI) is a range of ten cast-iron inserts that integrate with one of the most efficient 5kW output stoves on the market today. Inserts can be viewed on pages 54 to 69.

SFI benefits from Triple Burn Technology, with Primary Air Burn (lever in ash pan cover), Airwash Secondary Burn (lever top of door) and Tertiary Air (inlets inside the rear of the stove).

A multi-fuel grate allows SFI to burn seasoned wood and smokeless fuels.

Whilst all SFI insert designs, mantels and hearths are interchangeable, allowing you to design your own fireplace, it is advisable to use only natural materials for the mantelpiece and hearth. In addition, hearths (whether boxed and lipped or Munro) should be cut into sections to allow for expansion.

Fuel Type	WOOD	ANTHRACITE
Heat Output	Nominal 5kW	
Efficiency	76.1%	79.9%
CO Emissions	0.10 vol%	0.04 vol%
Construction	Steel & Cast Iron	
Net Weight	75 Kg	
Flue Outlet	Top (125mm)	
Airwash	Yes	
Air Vent	No	

Solid Fuel Integra can be used in smoke controlled areas (DEFRA exempt) and (at the time of printing) attains European Efficiency and Emission Requirements for 2022 making it 'Eco Design' ready.

Royal

The Royal Solid Fuel Integra is a plain arched cast-iron insert in a matt black finish. The black finish creates a nice contrast to the light colour of the mantelpiece.

The mantel shown is the Chilton in Turkish Limestone. This model is similar in design to our Flat Victorian; however, the mantelshelf and mouldings have a smart bullnose edge giving a more contemporary twist.

The hearth is polished black granite in our sturdy Munro style, which compliments the Chilton mantel. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options page 75).

Cast	Royal SFI
Finish	Matt Black
Engine	Solid Fuel
Mantel	Chilton
Material	Turkish Limestone
Shelf	1350mm (53") or 1500mm (59")
Hearth	Munro Bullnose
Material	Polished Black Granite
Size	1350mm x 450mm or 1450mm x 450mm

Majestic

The Majestic Solid Fuel Integra is a plain arched cast-iron insert, in a matt black finish, with only the outer band polished.

The mantelpiece shown is the Flat Victorian in Italian Carrara. This traditional mantel is also available in honed black granite and Turkish limestone. The complete range of available mantelpieces can be viewed on pages 70 to 77.

The hearth is polished black granite in our sturdy Munro style. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options on page 75).

Cast	Majestic SFI
Finish	Highlight Polished
Engine	Solid Fuel
Mantel	Flat Victorian
Material	Italian Carrara
Shelf	1350mm (53") or 1500mm (59")
Hearth	Munro Bullnose
Material	Polished Black Granite
Size	1350mm x 450mm or 1450mm x 450mm

Regal

The Regal Integra is a plain arched insert with the inner and outer bands highlight polished.

The mantel shown is the stylish Hexham Slate Stone. This mantel is also available in Turkish Limestone. All mantelpieces in the Integra Collection are interchangeable (see pages 70-77 for more options).

The hearth is honed black granite in our sturdy Munro style, to compliment the Hexham mantel. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options page 75).

Cast	Regal SFI
Finish	Highlight Polished
Engine	Solid Fuel

Mantel	Hexham
Material	Slate Stone
Shelf	1350mm (53")

Hearth	Munro Bullnose
Material	Honed Black Granite
Size	1350mm x 450mm

Viscount

The Viscount Solid Fuel Integra is a plain arched cast-iron insert with a matt black outer fascia and highly polished interior. The reflection of the fire-place onto the polished black granite hearth is quite exquisite.

The Viscount is shown inside the Harton cast-iron mantel in a white painted finish. The mantelpiece depicts an art nouveau style floral design in the centre.

The hearth is polished black granite in our sturdy Munro style. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options on page 75).

Cast	Viscount SFI
Finish	Half Polish
Engine	Solid Fuel
Mantel	Harton
Material	Cast-iron
Shelf	1500mm (59")
Hearth	Munro Bullnose
Material	Polished Black Granite
Size	1350mm x 450mm

Ashbourne

The Ashbourne Solid Fuel Integra is a decorative arched insert with the inner and outer bands polished along with the canopy and fire-front. The polished area highlights the intricate detail to the casting.

The Ashbourne is also available in a matt black finish.

The mantel shown is the Cotswold in Turkish limestone. This mantel displays impressive corbels and a beautifully rounded edge to the shelf and mouldings to match the polished bull-nose of the hearth below.

The hearth is polished black granite in our sturdy Munro style. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options on page 75).

Cast	Ashbourne SFI
Finish	Highlight Polished
Engine	Solid Fuel
Mantel	Cotswold
Material	Limestone
Shelf	1350mm (53") or 1500mm (59")
Hearth	Munro Bullnose
Material	Polished Black Granite
Size	1350mm x 450mm or 1500mm x 450mm

Oxford

The Oxford Solid Fuel Integra is a decorative tiled insert shown here in a highlight polished finish. A beautiful art nouveau floral design depicted on the canopy compliments the Mediterranean Poppy hand painted tile set. The Oxford Integra is also available in a matt black or antique finish.

The mantelpiece shown is the Hexham in Slate Stone (this larger size has slips internally). Our complete range of available mantelpieces can be viewed on pages 70 to 77.

The hearth is shown in polished black granite. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options on page 75).

Cast	Oxford SFI
Finish	Highlight Polished
Engine	Solid Fuel
Mantel	Hexham
Material	Slate Stone
Shelf	1500mm (59")
Tiles	Mediterranean Poppy
Colour	Ivory Burgundy
Hearth	Boxed & Lipped
Material	Honed Black Granite
Size	1500mm x 450mm

Aston Antique

The Aston Solid Fuel Integra is a decorative tiled insert shown here in an antiqued graphite finish. This model is also available in a matt black or highlight polished finish.

The Aston is shown inside a traditional Victorian Corbel mantel in Turkish limestone. The complete range of available mantelpieces can be viewed on pages 70 to 77.

The tile set shown is the Tulip design in Ivory Blue.

The hearth is polished black granite in our sturdy Munro style. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options on page 75).

Cast	Aston SFI
Finish	Antique
Engine	Solid Fuel

Mantel	Victorian Corbel
Material	Limestone
Shelf	1350mm (53") or 1500mm (59")

Tiles	Tulip
Colour	Ivory Blue

Hearth	Munro Bullnose
Material	Polished Black Granite
Size	1350mm x 450mm or 1500mm x 450mm

Aston

The Aston Solid Fuel Integra is a decorative tiled insert shown here in a highlight polished finish. This model is also available in a matt black or antique finish.

The Aston is shown inside the Kensington Slate Stone mantelpiece. The complete range of available mantelpieces can be viewed on pages 70 to 77.

The tile set shown is the Tulip design in Ivory Burgundy.

The hearth is Honed Black Granite in our sturdy Munro style. Hearths for solid fuel may need to be sectioned to allow for expansion (see hearth options on page 75).

ROMAN STONE MANTELS

The Integra Collection offers a range of beautiful man-made marble mantelpieces, known as micro marbles. Micro marbles are available in two different materials, Roman Stone (a mocha beige colour) and Polar White.

Micro marbles consist of 95% pure marble and 5% resin. This mixture creates additional strength and has the advantage of being consistent in colouration, whereas pure marbles are liable to colour variation with veining and fissures.

BLACK GRANITE MANTELS

The Integra Collection offers a range of solid black granite mantels providing a sturdy and elegant alternative to marble.

Our granite is sourced from the Shanxi region of China, and whilst it is more consistent than marble, it is still a natural material and can vary between dark grey and black in colouration.

Three designs of mantel are readily available, the Flat Victorian (Honed or Polished), the Athena and the Durham.

The William IV design (see Page 18) is occasionally stocked but this is not always guaranteed.

HEARTHHS

The Integra Collection boasts a range of beautiful, practical and robust hearths to suit the Integra appliance of your choice.

Suitable materials used for our hearths include honed or polished black granite, slate stone and limestone.

Hearths come in three different styles:

Boxed & Lipped:

These are traditional hearths with 20mm thickness and 30mm risers below.

Munro:

These are more robust and contemporary having a 30mm thickness and 20mm risers below. Munro hearths are softer on the eye and to the touch having attractive rounded bullnose edges.

Solid Fuel:

Hearths used for wood burning or solid fuel appliances are traditionally cut into four sections and fixed back together to allow for expansion.

For use with Solid Fuel Integra, CastTec supply sturdy sectioned Munro hearths in honed or polished black granite.

OAK MANTELS

The CastTec Mantelpiece Collection is a range of beautiful hand-crafted mantelpieces manufactured in solid oak.

Available in seven designs, some mantels sport a traditional corbel, others are plain or there is the ornate splendour of the Bamburgh.

All mantels are available in a light or medium oak stain, or they can be supplied with no finish to enable you to stain, wax or lacquer in a bespoke manner.

Our mantels are manufactured to an exceptionally high standard using craftsman with over 20 years' experience. Whilst only solid oak is used in the construction of our mantels, sometimes it is necessary to join wood pieces together sympathetically in order to reduce wastage.

All mantel designs have an internal rebate of 75mm (3") providing the space to accommodate any Integra cast-iron insert.

ARCHED INSERT GALLERY

A Gallery of Integra Arched and Tiled inserts for Gas Fires are shown on these two pages.

Electric and Solid Fuel Integra equivalents are similar in design to that for gas but have been modified to accommodate the relevant engines. Electric Integra only has arched insert design options.

CAST-IRON CARE

PACKAGING

Your Integra cast-iron fireplace is packaged so as to minimise exposure to adverse elements and should reach you in perfect condition.

Your fireplace should be stored in a warm, dry environment and remain packaged until it is ready to be installed. This will prevent accidental damage being caused, which will not be covered under warranty.

CLEANING

Your Integra casting requires only the minimum upkeep and it should remain in superb condition for many years.

Matt Black finishes can be maintained simply by dusting with a dry paintbrush. Cast Tec matt black stove paint is available for touching up if necessary but expert advice should be taken before application.

Antique finishes can be maintained simply by brushing with a dedicated shoe or polishing brush. Grate polish should only be applied if the original finish becomes too tarnished.

Polished and Highlight Polished areas can be wiped clean with a dry cloth, especially if an 'orange' colour appears on the waxed polished surface after fitting. Severe tarnishing on polished areas can be improved by using a very fine wire wool.

WARNING

Cast-iron products are vulnerable to rust and tarnishing if exposed to dampness or water. Avoid using damp clothes, water based liquids, furniture polish, detergents, oils, grease etc. on the surface of the casting. Should your fireplace become wet for any reason, dab it gently with a dry cloth. This should prevent any tarnishing or rust from forming.

It is normal for some discolouration to occur to the working parts of a cast-iron fireplace, especially where it comes into contact with severe heat or a naked flame. This discolouration will not effect the strength or practicality of the parts affected.

GENERAL INFORMATION

Products shown in this brochure are manufactured for Cast Tec Ltd., who, with a professional group of companies, distribute them exclusively in the U.K. Goods must be checked prior to installation, as no responsibility will be accepted thereafter for the redecoration, removal or reinstallation of products. Faulted goods must be reported within 48

hours of delivery or as soon as practicable.

Suitably qualified installers should carry out installation of Integra appliances. No responsibility will be accepted for damage or problems arising from an incorrect or unqualified installation. Cast Tec Ltd., reserve the right to delay or withdraw products, change designs, speci-

fications or materials without prior notice due to continuous product development or supply issues.

Photographs and designs shown in this brochure are the copyright and design rights of Cast Tec Ltd. and can only be used or copied with permission.

HAND PAINTED TUBELINE TILES

Tubeline Tiles were traditionally made to withstand the high temperatures generated by a working fireplace and performed the practical function of reflecting heat into the room when placed

at an angle facing inward. With a choice of six designs and various colour options, two runs of five tiles make up a set to fit into an Integra tiled insert. Poppy tile

sets include a left and right-hand-ed design. Our hand painted tubeline tiles are manufactured in the UK in the traditional way and will be subject to colour variation and crazing.

CAST-IRON SLEEVES

Cast-iron Sleeves are an alternative to the more colourful tubeline tiles. Sleeves are supplied in pairs

to suit an Integra casting and these are available in a matt black, antique or highlight polished finish.

There is a choice of four cast-iron sleeve designs and the Mediterranean Poppy has a left and right handed design.
